

WASHING & DRYING

Giant Industrial Parts Washers

Giant Finishing's continuous belt washers were developed to provide high volume, efficient cleaning and drying of parts with simple geometries. Parts can be loaded directly on to the belt or put into containers.

Standard Giant belt washers are available in widths: 12", 18", 24", 30", 36" and 48".

Customized units with belts as wide as 96" are available upon request.

360 degrees of spray coverage
